Brussels, February 19th 2013

Dear friends,

After a long absence and a very hectic agenda, I am finally taking the time to send you some news to start 2013.

The retrospective exhibition at the Independence gallery of the BIL (Banque Internationale à Luxembourg) was a unique experience and achieved a great success with the public. I was very honoured by the visit of His Highness the Princess Sybilla of Luxemburg (sister-in-law of Grand Duke Henri). I also would like to thank the warm and professional team of the BIL. I was also greatly moved by the support of collectors, who were very enthusiastic about the lending of a large part of the works for the exhibition.

All the works of the exhibition have been reproduced in a very beautiful catalogue that can be seen and downloaded on my website at the following address:

The Pascal Janssens gallery in Ghent is currently displaying the sculptures of Marta Pan, as well as my recent works in the exhibition called « Inside Outside », taking place from 26 January to 9 March 2013, and already extended until 27 April.

It is the opportunity to discover my new works on the « Coloured Meditation » series inspired by the colorfield paintings of Mark Rothko, the « Black & White Rhapsody » series influenced by the painting of Pierre Soulages and finally the platinum prints of the « Light Harmony » series.

The « Coloured Meditation » series will be travelling around the world in various art galleries in the next two years. Therefore, I advise you to take this really unique opportunity to discover nearly the complete series in Ghent.

For this exhibition, I had the honour to work for the very first time with the famous Krieger laboratory from Düsseldorf where the most famous international photographers are producing their prints (A. Gursky, C. Sherman, T. Ruff, C. Höfer...).

This spring, the gallery Pascal Janssens will be present at the exhibition **Art Paris** taking place at **the Grand Palais from 28 March to 1st April 2013 on the stand C24** (www.artparis.fr). It is an exciting event for modern and contemporary art lovers.

A selection of my recent works will hang next to kinetic artists such as Carlos Cruz-Diez, Rafael Barrios and J sus Rafael Soto. It is an honour for me to expose next to these great artists.

A documentary film, tracing my exhibitions in Luxembourg and Ghent, is in preparation. This film also focuses on my personal approach and my future prospects. The film is produced by Emove Communications Network and directed by Gauthier Demaret.

I am very glad to share all these great news with you. At the same time I can also clearly feel the result of the growing interest of Belgian and international collectors for my works.

I thank you for all your support and I am looking forward to meeting you under the vault of the Grand Palais (I will be there from the 27th pm to the 29th noon). I would be very pleased to see you very soon at Art Paris or at any other art event.
