### Exhibition from March 11th until April 20th 2018

I am very pleased to announce the exhibition of my works in the Lausberg Gallery in Düsseldorf. This exhibition brings together a selection of my abstract photographs from the series «Pictorial» and «Optical». Bernd Lausberg has the speciality of defending international artists mainly related to abstraction and color such as Rafael Barrios, Sabine Funke, Regine Schuman ... very close to my sensitivity. The work of the two artists on display (Harald Schmitz-Schmelzer and myself) was presented by Steffen Fischer, Director of the Goch Museum in the evening of the vernissage and accompanied by a very beautiful concert of classical music played by young academy musicians.

Yves Ullens, Pascal Courcelles, Seize MM Gallery – Place du Jeu de Balle 68 – 1000 Bruxelles Exhibition from March 22nd until April 22nd 2018 www.mmgallery.be

Marc Minjauw presents a selection of my works realized in collaboration with my friend, the Belgian painter Pascal Courcelles. There are many references to painting in my photographic work. I also like working with other artists because it's an opportunity for me to experiment and open up to other creative ways. In the photo-paintings made with the complicity of Pascal Courcelles, the colored surface of the photograph is used as a backdrop and blends perfectly with the nuances and textures of the painting.

### **UPCOMING EXHIBITIONS**

Riga Photography Biennal 2018 June 16th -30th 2018 Riga central library, Riga, Lettonie www.rpbiennial.com

After exhibiting my series of *Coloured Meditation* photographs in tribute to Mark Rothko at the Rothko Art Center in Daugavpils, Latvia, the exhibition continues its journey and will be shown at the Central Library of Riga as part of the second edition of the biennale of photography. The first biennial photography of Riga in Latvia was created in 2016 to promote the photographers of the Baltic and international countries in different cultural places of the city.

#### Yves Ullen (BE). Tribute. In cooperation with Daugavpils Mark Rothko Art Centre

There are numerous references to painting in Yves Ullens' work. The optical effects and the geometric compositions of certain images such as Blue Floating Shapes into Red, Disco Lights or White Light Sculpture evoke the kinetic works of Victor Vasarely or Bridget Riley. His more recent works in the Coloured Meditation series evoke the Colorfield Paintings of Mark Rothko, who used to express himself by means of one or more colours, with vague contours, laid flat on the canvas.
